Hello Terry,

Please let me know when you have time to briefly discuss your comments as shown in your recent memo for Unimatic's Revised RIW dated 5/11/07.

gene

**CC:** Fowler, Gene

8-21-08, 11AM  
Terry and I discussed the  
deficiencies in his memo for  
the Revised RIW dated 5-11-07.

outcome: seems to be a miscommunication in the  
wording of delineation (0.49-mg/kg) sampling  
standard and remediation standard of 50-mg/kg.

This will be clarified with the  
RPs.
